----------------	------

Product description

Environmentally friendly solvent mixture which is largely harmless to health and used for cleaning tools after reactive resin works. With strong dissolving effect suitable for tool cleaning, even after hardening of the resins.

Note: not recommended as thinner for resins.

Product features

- odorless
- good cleanability
- very economical

Technical data

Density	1.09	kg/l	DIN EN ISO 2811-2 (20 °C / 68 °F)
Flashpoint	100 °C / 212 °F	-	

The values established in tests are average values. Deviations from the product specification may occur.

Processing

To clean tools, remove the necessary amount into a separate, reclosable container and carry out the cleaning with a brush. If necessary, tools with hardened material can be soaked in the dilution to remove the soiling.

Storage

Always re-seal and close tight after usage and store closed in a dry place. Please note the safety data sheet!

Special remarks

Note the information on the containers and on the safety data sheet.
